

Körber ecosystem in pharma: Körber certifies Quindoo's quiMSI for seamless pharmaceutical equipment integration

Lüneburg, Germany / Kufstein, Austria, 27 February 2025. Körber, the international technology group and global leader in manufacturing execution systems (MES) for the pharmaceutical industry, has certified Quindoo for its quiMSI product as a "PAS-X MSI Plug & Produce" Körber Ecosystem partner at the "Certified" level. This helps to seamlessly integrate pharmaceutical equipment.

quiMSI provides pharmaceutical manufacturers with a straightforward and efficient way to connect their shopfloor equipment and automation systems to the PAS-X MES. This capability is critical in ensuring smooth communication across operational layers, improving production efficiency, and supporting compliance with regulatory requirements.

Lars Hornung, Senior Principal Alliances & Technology Partners Software at Business Area Pharma, emphasizes the importance of such collaborations: "At Körber, we are committed to enabling our customers with robust and flexible solutions to further improve pharmaceutical manufacturing. quiMSI aligns very well with our mission to simplify the integration of MES with the automation level through out-of-the-box interfaces. We are delighted to welcome Quindoo in our MSI partner ecosystem."

"Integration on the automation side remains challenging due to heterogeneous system landscapes. Körber takes a significant step toward Plug & Produce for shopfloor connectivity with its MSI interface technology. quiMSI, the Swiss Army knife of L2-integration, supports this with a plugin-based, extensible modular concept, enabling cost-reduced integration within hours instead of weeks," says Werner Huber, Product Owner (quiMSI) from Quindoo.

About Körber

We are Körber – an international technology group with around 13,000 employees at over 100 locations worldwide and a common goal: We turn entrepreneurial thinking into customer success and shape the technological change. In the Business Areas Digital, Pharma, Supply Chain, and Technologies, we offer products, solutions and services that inspire. We act fast to customer needs, we execute ideas seamlessly, and with our innovations we create added value for our customers. In doing so, we are increasingly building on ecosystems that solve the challenges of today and tomorrow. Körber AG is the holding company of the Körber Group.

At the Körber Business Area Pharma we are delivering the difference along the pharma value chain with our unique portfolio of integrated solutions. With our software solutions we help drug manufacturers to digitize their pharmaceutical, biotech and cell & gene therapy production. The Werum PAS-X MES Suite is recognized as the world's leading Manufacturing Execution System for pharma, biotech and cell & gene. Our Werum PAS-X Savvy Suite accelerates product commercialization with data analytics and AI solutions and uncovers hidden business value.
